

ATTENTION TEACHERS:

#### SIGN UP FOR THE 2020 LOUISIANA FORESTRY TEACHER TOUR

You will have the opportunity to have hands on field experiences. You will visit harvest operations and manufacturers of forest products. It is important that our future generation learn the importance of the forestry.

The Louisiana Forestry Teacher Tour will give you insight into education programs for your classrooms.

The tour will incorporate all aspects of conservation including water, wildlife and woodlands. These experiences will help you be a better educator about Louisiana's renewable resource.

You will return home full of information and tools to instruct your classes. There is a registration for the Tour. Sponsors have covered the cost for your participation.

Come on...jump on board with the Louisiana Forestry Teacher Tour. Register today. Only 35 applicants will be accepted into the program.
